Popular science description

(Describe the project using popular science wording to aid comprehension by readers who are not knowledgeable about the subject. Describe what is planned, and why, and explain how the new knowledge may be of significance. The popular science description comprises an important tool when the Swedish Radiation Safety Authority communicates about research funding provided by the Authority. If we award a grant to you, we reserve the right to use your description for information purposes. A maximum of 15 lines using Arial font, 10 pt.)

Summary

(The summary account of the research programme must briefly describe the planned work, the approach to the research, the scientific methods or procedures that will be used, and key aims of the planned research. The text is to provide a brief and general orientation on the research work's purpose and execution. A maximum of 30 lines using Arial font, 10 pt.)

**The project's total budget**

The funding sought should cover the budget for the first three years. A detailed cost account should be provided in Appendix 4. State the total amount intended to cover all kinds of project-related costs, for example salary, travel (including visits to research facilities), publication costs and relatively small pieces of equipment. The funding is not allowed to be used for scholarships. Include both indirect and direct project-related costs. If you have questions about classification of indirect and direct costs, please contact your institution of higher education in Sweden. The maximum amount to be granted is 1,700,000 SEK per year.

	Year 1	Year 2	Year 3
Own salary (incl. payroll surcharge ("LKP"))			
Project costs			
Other costs			
Administration, institution and university overhead			
Sum			

I intend to apply for, or have applied for, additional funding of this project from these sources:

This project has already been granted funding from (also state amount):

Any licences necessary for running the project have been granted:

Yes; specify, e.g. a licence from an ethics committee on animal experiments or from the Swedish ethical review authority:

No; specify which licence(s) will be applied for:

No; the project does not require any licences.

The application shall include the following appendices (see description on last page):

- Research programme (appendix 1)
- CV (appendix 2)
- List of publications (appendix 3)
- Budget and resources for research (appendix 4)

Signatures

Print out the application form and sign it. It must also be signed by the head of the department or the equivalent at the institution of higher education in Sweden where your proposed research will be conducted. These signatures will signify confirmation that:

- The described research, post and equipment can be given scope within the department during the period of time and to the extent stated in the project plan;
- The department approves the cost estimate belonging to your application;
- You have accounted for any secondary occupations and business ties from which no factors have emerged that conflict with good research ethics;
- Approval and/or authorisation has been granted by the time of the project commencing, for example pertaining to an ethics review.

You must have discussed the above items with the representative of the administrating university before the representative approves and signs the application. The administrating university is responsible for ensuring that the project is in compliance with the conditions and assumptions as defined by Swedish legislation.

E-mail the signed and scanned application form and all requested appendices to registrator@ssm.se no later than 30 August 2019.

APPENDICES

Produce the appendices in A4 format using margins of 25 mm and Arial font, 11 pt.

Research programme (appendix 1)

Appendix 1 must contain a brief, though complete, description of the proposed research, a maximum of ten A4 size pages including references. The focus of the research programme is to be forward-looking, in other words, a description of what is to be done. Please note that pages exceeding the permitted number will be excluded from consideration.

The following information must be described in the proposed research programme under separate headings:

- **Purpose and aims** Give an account of the overall purpose and specific aims/objectives of the research.
- **Survey of the field** Provide a summary account of your own and others' research and previous findings in the field of research. Specify key references.
- **Project description** Provide a summary account of your proposed project describing theory/hypotheses and methods, and the time schedule, execution and project organisation.
- **Significance** Give an account of the project's significance (importance) in relation to the field of research.
- **Preliminary results** Describe your own trials and preliminary studies in the field of research.

CV (appendix 2)

Attach your CV, a maximum of two A4-size pages.

List of publications (appendix 3)

Attach a list of publications in which you have indicated with an asterisk (*) the three publications of key importance for the project. Important: Only include articles/papers or the like that have been published or accepted for publication.

Budget and resources for research (appendix 4)

Provide a brief explanation of each item of the budget accounted for as part of your application. Describe your existing research resources **for the proposed project**. Also provide an account of resources you and any prospective collaborators or partners have applied for, inclusive of this application. State the kind of funding, contribution or grant, source(s) of the financial support, the recipient of the financial support/project manager, the period or duration of such funding, and the applicable amounts. Appendix 4 is not allowed to encompass more than two A4-size pages.
